

## AFAB HIRES & PROMOTIONS

AFAB believes building the right team is paramount to the success of AFAB as a business and as a team. We strive to hire and promote dedicated and hard-working individuals with a high level of integrity, honesty and loyalty. AFAB would like to take a moment to congratulate the following team members — some new hires and one well-deserved promotion.

**JEFF BOSTIC**

VP of Sales

### **NEW HIRE // DEC 2020**

Jeff has been in the architectural metals rep industry for nearly 30 years and has come on board to help lead AFAB's growth into the future with focus on pull through marketing sales through architectural firms and the design community. Jeff is also focusing on building and growing AFAB's newer T9 Wall Panel Line working on getting the panel specified and hoping to be a basis of design on some select projects.

**JOHN LAWRENCE**

VP of Technical Operations

### **NEW HIRE // APRIL 2021**

John has been in the architectural panels and glass and glazing industry for 30 years. John brings with him an expertise for consulting on everything for the T9 Wall Panel line from design to install; as well as using his knowledge for managing all technical aspects of all architectural metals that AFAB currently manufactures.

**SCOTT COFER**

Chief Operations Officer

### **PROMOTION // 2021**

Scott has been with AFAB for 14 years working from an entry level position into shop management and now will be leading all AFAB's operations. Scott started at AFAB as a young and eager sheet metal fabricator, learning all products and machinery. He is quoted saying he was drawn to AFAB as a young 20-year-old for the opportunities to work his way up the ladder through hard work. He views AFAB as an establishment that is willing to teach and train those that WANT to work. He enjoys the challenges that working in a custom metal fab shop can bring.
